Subject: Letter for support for DotAfrica

I am pleased to offer my unreserved support to DotconnectAfrica in its application to apply for the .africa generic top level domain in the current 2012 ICANN round of application.

DotconnectAfrica 's action to apply for the top level domain for the continent as well as the world at large is not only a timely but key aspect for the development and advancement of academic, technological, infrastructural and commercial facets of the African continent in line with the millennium development goals. Being a professional in the African commercial sector, I see full potential and viability in the entire project towards sustained growth of the domain infrastructure. I therefore offer my unreserved support and faith to this project.
