Subject: Letter for support for DotAfrica

I'm writing to you in support of your organization DotConnectAfrica in its bid to secure and create the proposed .africa Top Level Domain (TLD).

Having been in the technology and internet industry for over 15 years with experience in various continents of the US, Europe, Asia Pacific, The Middle East and Africa, I note that the Africa region is experiencing immense growth in the commercial sector.

I have also seen the great efforts of DotConnectAfrica in the past 3-4 years in championing the .africa TLD globally, and clarifying the issues of its implementation and internet governance models that is best for Africa, as one of the leadership team that is elected to serve the organization, I take full pride in supporting this effort now and the future

There lies a great potential in the establishment of a local world class registry service that will amplify and boost the African content and put it at the same level with developed nations.

DotconnectAfrica has put forward the best strategic approach to manage the registry as well as established it best candidacy to market and champion the .africa TLD, and therefore, I offer my full support.

Sincerely,

David Teklit
